Judgment Recovery is Viable Business Opportunity for Unemployed and Part-Time Workers

Al Schweitzer's CourtCash Judgment Recovery Course Provides Necessary Training

TAMPA, Florida (April 15, 2010) - Every year it is estimated that over \$200 billion in Judicial judgments go uncollected. For every judgment that is collected, six more take its place. This creates a tremendous home-based business opportunity for those who have recently been laid off or continue to struggle to find work.

"Anyone who can read and write can do this business," explained Al Schweitzer. "And, they can do it right from kitchen table with a computer, a telephone and a fax machine."

Schweitzer, who is known as America's most influential judgment recovery expert, created the judgment acquisition and recovery business over 20 years ago, and has fostered its growth into a \$200 billion a year industry.

As a legendary private eye, Schweitzer put his investigative skills to work for clients such as Harpo, Inc. (Oprah Winfrey's company), ABC, NBC, CBS, General Electric Credit Corporation, Time Warner, Playboy Enterprises, Trammel Crow, and Major League Baseball. It was during his work for Trammel Crow that Schweitzer literally stumbled upon a little-known wealth building opportunity - acquiring and recovering judicial judgments.

"The judgment recovery business is one that individuals who are unable to find work or are looking to recover financially should consider," noted Schweitzer. "With the proper training, anyone can launch a judgment recovery business and begin generating \$2,000 per month working just a couple hours a week or earn a six-figure income working full-time."

The key to becoming a successful judgment recovery specialist is finding the right training course. "Anyone can teach someone how to find the judgment and what paperwork to

complete to get the process rolling, but few can teach the necessary investigative skills to actually get the money owed,” explained Schweitzer. “That’s why the course I created - CourtCash - places special emphasis on “finding the money.”

The CourtCash course is a home-study program that teaches:

- How to find judgments
- How to approach judgment creditors
- How to make a fortune processing unsatisfied judicial judgments
- How to find the debtor and their assets
- How to seize the assets and get the money

“Everything an individual needs to know about starting a judgment recovery business is in this training course,” noted Schweitzer. “No other training course even comes close.”

Collecting judicial judgments is a respectable and professional occupation that provides a much needed community service and financial freedom.

ABOUT ALLEN SCHWEITZER

Known as America’s most influential judgment recovery expert, Al Schweitzer created the judgment acquisition and recovery business and has fostered its growth into a \$200 billion a year industry. Schweitzer’s highly sought after investigative skills are a result of his extensive training with the Department of Treasury -IRS Financial Investigative School and a variety of other programs. Al is an expert consultant to the Federal Trade Commission on identity theft as well as an expert consultant for US Customs Internal Affairs and has provided expert commentary on the subject of asset investigations for the U.S. Congress.

In late 1989, Al authored his first instructional manual entitled “Collecting Judicial Judgments with Al Schweitzer.” That single instructional manual expanded to become the country’s leading judgment acquisition and recovery course - “CourtCash.” During the past 20 years, Al has shared this secret with thousands of average people allowing them to take full control of their financial situation and becoming financially independent off of other people’s debt.
